

| N. | Nome | Titolo |
|-----------|---------------------------|--|
| 1 | Carolina Pirino | Kiss1 and GPR54 expression in the cat ovary during different reproductive stages |
| 2 | Anna Beatrice Casano | Influence of environmental enrichment on neuroplasticity of military drug detection dogs: a molecular approach. |
| 3 | Iulia Elena Filipescu | Bovine colostrum- new insights in IBD profilaxy |
| 4 | Linda Petrucci | Relationship among circulating anti-Müllerian hormone, superovulatory response and production of transferable embryo in multiparous and nulliparous rabbit does (<i>Oryctolagus cuniculus</i>) |
| 5 | Laura Menchetti | The Iken Up® supplementation is a way for improving the physical fitness in drug detection dogs: a physiological approach |
| 6 | Rosy Cagnani, Elena Sarti | Non-coding RNAs as Novel Biomarkers in Prostate cancer |
| 7 | Marco Isidori | “The role of pre- and probiotics in the management of canine IBD: a research protocol” |
| 8 | Lorenzo Pisello | Uterine Infection In The Mare: Microbiological Surveys On 3321 Samples In Central Italy (2010-2015) |
| 9 | Anna Serroni | Evaluation of <i>C. perfringens</i> deleted CPB2 expression in Baculovirus system and its application as immunogen for the production of monoclonal and polyclonal antibodies |
| 10 | Elisa Rampacci | Antibiotic research: when new abilities generate new ideas |
| 11 | Giulia Morganti | Italian nationwide survey on endoparasites of dogs: an example of “federalism” in parasitology |
| 12 | Ilaria Porcellato | Canine melanoma immune suppressive environment: looking for the mole |
| 13 | Laura Bongiovanni | New blood biomarkers for malignant melanoma: Detection of cell cycle transcripts within melanoma-derived extracellular vesicles in vitro. |
| 14 | Silvia Crotti | L’indagine sanitaria come supporto alla strategia gestionale per l’eradicazione dello scoiattolo grigio <i>Sciurus carolinensis</i> Gmelin, 1788 in Umbria. |
| 15 | Luca Grispoldi | Identification of the risk factors correlated to growth, survival and enterotoxins production of <i>Staphylococcus aureus</i> in canned meat production to implement the 5hazard analysis and critical control points (HACCP) system |

| | | |
|----|-------------------------------|---|
| 16 | Katia Forti | 3Rs approaches applied to veterinary autogenous vaccines |
| 17 | Eleonora Lauteri | Comparison between radiography and ultrasonography in the equine thoracic disease: a retrospective study |
| 18 | Lorenzo Pisello | Risk Factor for Major Neonatal Calf Diseases |
| 19 | Cecilia Righi | Contrast-enhanced ultrasound as a complement for detecting gallbladder disease in dogs |
| 20 | Chiara Morelli | Clinical and immunophenotypical findings in four horses with infrequent form of lymphoma |
| 21 | Sara Busechian | Obesity in the horse: is the Italian proverb “l’occhio del padrone ingrassa il cavallo” true? |
| 22 | Sara Busechian | Bacteriological evaluation of the equine stomach |
| 23 | Laura Valli | Endoscopic anatomic characteristics of brown bears respiratory tract: preliminary examinations |
| 24 | Guillaume Robiteau | True hermaphroditism in a Cocker Spaniel: a case report |
| 25 | Martina Crociati | Lipid metabolism and fertility in dairy cows |
| 26 | Flaminia Ortolani | Topical administration of morphine or tramadol as analgesic treatment in corneal ulceration of the horse |
| 27 | Beatrice Del Sal | Elbow arthroscopy in dog's dysplasia: evaluation of clinical, diagnostic and therapeutic aspects through a follow up analysis |
| 28 | Giulia Moretti | Traditional Gonadectomy vs Gonadectomy by Ligasure® in grey squirrels (<i>Sciurus carolinensis</i>): comparing surgical techniques. |
| 29 | Pressanto, Stefanetti | Septic pyomyositis, multiple pelvic osteomyelitis and thrombosis in a Thoroughbred foal. |
| 30 | Petrescu, Moretti, Morganti | Clinical, ultrasonographic and therapeutic features occurred in a dog affected by massive pleural larval mesocestoidiasis |
| 31 | Pisello, Petrescu, Porcellato | A case of hardware disease in a pregnant cow: clinic-pathological findings |
