

VETERINARY MEDICINE - STUDY PLAN

2° - II	Materia	CFU/ECTS	ESAME/EXAM	Subject
85004004	Patologia generale veterinaria	4	yes	Veterinary general pathology
85060002	Immunopatologia generale veterinaria	2	yes	Veterinary general immunopathology
85060102	Morfopatologia generale veterinaria	2	yes	Veterinary general morphopathology
85004203	Genetica veterinaria	3	yes	Veterinary genetics
85104202	Genetica molecolare applicata agli animali domestici	2	yes	Molecular genetics applied to domestic animals
85004302	Valutazione genetica degli animali in produzione zootecnica	2	yes	Genetic evaluation of livestock
GP005417	Epidemiologia veterinaria	2	yes	Veterinary epidemiology
GP001199	Nutrizione e alimentazione animale I	4	yes	Animal nutrition and feeding I
GP001200	Parassitologia degli animali domestici	5	yes	Parasitology of domestic animals
		26		

3° - I sem	Materia	CFU/ECTS	Subject
GP005423	Malattie parassitarie degli animali domestici	4	Parasitic diseases of domestic animals
GP005407	Farmacologia generale e speciale veterinaria	5	General and special veterinary pharmacology
GP005410	Basi farmacol. di terapia analgica	1	Pharmacological bases. of analgesic therapy
85A00020	Anatomia patologia veterinaria I	4	Veterinary pathology anatomy I
GP001198	Nutrizione alimentazione animale II	5	Animal feed nutrition II
GP005414	Microbiol. degli alimenti	2	Food Microbiology
GP005416	Tecnologia delle produzioni alimentari	3	Food production technology
GP005415	Igiene degli alimenti	3	Food hygiene
GP005430	Metodologia clinica nei piccoli animali	1	Clinical methodology in small animals
GP005431	Metodologia clinica nei grandi animali	1	Clinical methodology in large animals
		29	

3° - II sem	Materia	CFU/ECTS	Subject
85054504	Anatomia patologica Veterinaria II	4	Veterinary pathological anatomy II
GP005408	Tossicologia dei piccoli animali	2	Small animal toxicology
GP005409	Tossicologia dei grandi animali	2	Large animal toxicology
GP005418	Malattie infettive dei grandi animal	4	Infectious diseases of large animals
GP005420	Malattie infettive dei piccoli animal	2	Infectious diseases of small animals
GP005419	Patologia tropicale veterinaria	2	Veterinary tropical pathology
GP001202	Patologia chirurgica veterinaria	3	Veterinary surgical pathology
85002203	Biochimica clinica	3	Clinical biochemistry
85107303	Diagnostica di laboratorio ella pratica clinica	3	Laboratory diagnostics in clinical practice
		25	

4° - I	Materia	CFU/ECTS	Subject
85A00002	Anatomia patologica veterinaria III	5	Veterinary pathological anatomy III
GP005425	Semeiotica chirurgica veterinaria	3	Veterinary surgical semiotics
GP005426	Radiologia veterinaria e medicina e nucleare	3	Veterinary radiology and nuclear medicine
GP005372	Ispezione, controllo e certificazione degli alimenti di origine animale	7	Food inspection and certification of meat and production units
GP005427	Semeiotica e patologia medica dei piccoli animali	3	Semiotics and medical pathology of small animals
GP005429	Ematologia clinica comparata	2	Comparative clinical hematology
GP005428	Semeiotica e patologia medica dei grandi animali	3	Semiotics and medical pathology of large animals
		26	

4° - II	Materia	CFU/ECTS	Subject
85008702	Anestesiologia Veterinaria	2	Veterinary Anesthesiology
85008903	Diagnostica per immagini	3	Diagnostic imaging
GP005396	Medicina operatoria	2	Operative medicine
GP005377	Patologia aviare e sanità pubblica veterinaria	4	Avian pathology and veterinary public health
85A00014	Etologia veterinaria e benessere animale	2	Veterinary ethology and animal welfare
GP005405	Benessere animale nel trasporto e alla macellazione	1	Animal welfare during transport and slaughter
GP005406	Benessere nelle produzioni zootecniche	1	Wellbeing in livestock production
GP005404	Indicatori sanitari del benessere animale	1	Health indicators of animal welfare
GP001212	Medicina legale vet, legis vet, protezione animale e deontologia	2	Veterinary forensic medicine, veterinary legislation, animal protection and ethics
A000604	Fisiopatologia della riproduzione e fecondazione assistita grandi animali	4	Pathophysiology of reproduction and assisted fertilization in large animals
A000606	Andrologia e clinica andrologica grandi animali	2	Andrology and large animal andrological clinic
A000607	Fisiopatologia della riproduzione e fecondazione assistita piccoli animali	2	Pathophysiology of small animal reproduction and assisted fertilization
		26	

5° - I	Materia	CFU/ECTS	Subject
GP005398	Clinica chirurgica e chirurgia d'urgenza dei piccoli animali	3	Clinical surgery and emergency surgery small animal
GP005399	Clinica chirurgica e chirurgia d'urgenza dei grandi animali	3	Clinical surgery and emergency surgery large animal
GP005397	Chirurgia ortopedica	2	Orthopedic surgery
A000623	Clinica ostetrica e ginecologica grandi animali	3	Obstetrics and gynecology of large animals
A000624	Clinica ginecologica e andrologica piccoli animali	2	Obstetrics, gynecology and andrology of small animals
GP005432	Clinica e terapia dei piccoli animali	4	Clinic and therapy of small animals
GP005433	Clinica e terapia dei grandi animali	4	Clinic and therapy of large animals
GP005435	Dietologia	2	Dietetics
		23	

TIROCINIO		TRAINING - practical activity	
GP001151	Ispezione, controllo e certificazione alimenti di origine animale	7,5	attendance verified + proof eligibility Food inspection, control and certification of meat productions
GP001153	Patologia aviare	2,5	attendance verified + proof eligibility Avian pathology
85A00007	Clinica medica e profilassi veterinaria	5	attendance verified + proof eligibility Internal medicine
85A00004	Clinica chirurgica veterinaria	5	attendance verified + proof eligibility Surgery
85054025	Clinica ostetrica e ginecologica veterinaria	2,5	attendance verified + proof eligibility Obstetrics and gynecology

PRE-TIROCINIO		Practical Training	
85054701	Parassitologia	1	attendance verified + proof eligibility Parasitology
85054002	Anatomia patologica	2	attendance verified + proof eligibility Anatomical veterinary Pathology
85036001	Settimana Rossa - corso base	1	attendance verified + proof eligibility Clinical work at the VTH - basic course
85036501	Settimana Rossa - corso avanzato	1	attendance verified + proof eligibility Clinical work at the VTH - advanced course

1) Please, be aware that these are simply suggested plans according to each AV, other subjects could be added/modified, however timetable should be properly checked by the students to avoid overlapping.

2) As far as the ADE activities (subjects chosen by the student) those reported as SDL (Self Directed Learning) or P (Practical) are accessible to a larger number of students, for those reported as CP (Clinical Practical) we reserve the right to accept a number of 2 erasmus-students according to teacher and based on the booking order through the LA

3) The correct subscription to the desired course (ADE CP) will depend on the order of registration and submission of the LA

4) If you will only attend classes without taking the final exam, you will not be awarded with ECTS, your TOR will only report ATTENDED

5) Activities NOT available for Erasmus: Tirocinio Zootecnica; Settimana Verde (Base ed Avanzata); Clinica Mobile

As far as "Igiene degli Alimenti", external activities are also included and reservation is required in agreement with the teacher.
